

Conditions of Participation

Offers 2024

In connection with the offerings of our association, healing means the becoming whole of body, mind and soul and not recovery or healing of suffering in the conventional medical sense. Participation in our offers does not replace medical or other therapeutic treatment in the sense of conventional or complementary medicine. Treatment is generally only reserved for a doctor or therapist. For the sake of language flow and for general better understanding, the word treatment is also used in shamanic applications in the sense of application instead of treatment.

Registration for one of our offers is only accepted in writing or via an online registration form.

After registration, information on the details of the respective event as well as booking and payment options will be sent. The booking of an event is only valid once it has been paid for.
